

STOP HEALTH CANADA

FROM ERASING TRADITIONAL CHINESE MEDICINES (TCMS)

WE NEED YOUR SUPPORT

Health Canada is forcing through new laws to Natural Health Products (NHPs), including TCMS.

What will happen:

Increasing cost of TCMS:

The proposed changes will increase costs for businesses, leading to much higher prices for practitioners and consumers.

Reduced Patient Care:

Many products are expected to disappear, leaving practitioners without the tools they need to support their patients.

Disregard for Cultural Wellbeing:

Health Canada is failing to consider the specific needs of those who rely on TCMS, leading to negative impacts on our health.
